## Invacare® Hemi Walker and Platform Attachments

The Invacare Adult Hemi Walker is designed for patients with limited or no dexterity in one arm or hand. This lightweight walker combines support and stability, yet is easy to lift and maneuver, even with one hand. Its wider base provides more stability than a quad cane.

Medicare  
Medicaid

Introducing the new universal walker platform attachment from Invacare. The walker platform fits all Invacare walkers. It adjusts quickly and easily without any tools and includes many standard features.

## Drive Medical® Duet Walker and Travel Chair

The latest innovation by Drive Medical, the Duet Transport Chair/Rollator, combines the features of a transport chair and a rollator in one product, so the individual can ambulate by themselves or be pushed by a caregiver. The foot rest folds down when used as a transport chair and folds up and out of the way when used as a rollator. The Duet is comfortable and easy to use. Included is a seat belt and an under-the-seat carry pouch.

Medicare  
Medicaid

## Invacare® Court-Side Glides

Invacare's Court-Side Glides give consumers a durable walker glide tip that is long-lasting, safe and easy to install, and provide a smooth glide experience. Consumers can install them in seconds on Invacare fixed wheeled walkers. The Court-Side Glides feature a specially designed housing that allow the ball to be manually rotated to unworn areas so it lasts longer.

## Invacare® 13" Rear Wheel Brakes

Used with 3" or 5" swivel wheel attachments or tall 3" single fixed-wheel attachments. Brake attachments operate without interfering with regular walking motion. Allows for safe operation by putting the user in complete control. Completely adjustable to accommodate most users. Set of two.

## Invacare® 5" Single Fixed-Wheel Attachments

5" Single Fixed-Wheel Attachments with rear Glide Tips. Our adjustable accessories provide maximum flexibility and help improve maneuverability and use. Walker accessories allow individuals to customize walkers to their specific needs.

## Invacare® Walker Pouch

- Lightweight, water-repellent, and mildew & rot-resistant
- Easily attaches over front crossbar
- Made of denier nylon, Urethane coated back, Inside and outside pockets

## Invacare® Walker Tray

- Molded with details for cups and pen holders
- Clip-on brackets for easy attachment
- Provides convenient assistance for a variety of everyday activities.
- Sloped corners for easy cleaning
- Fits only 6291 Walkers except 6291-HDA and 6281 Walkers

## Invacare® Walker Basket

- Basket can be installed on the outside or inside of the walker
- Convenient storage space for shopping, traveling and everyday use
- Mounts easily with snap hooks onto all folding and rigid walkers
- Rust-resistant, attractive gray vinyl coating

## Invacare® 5" Swivel Wheels

In addition to having the benefits of fixed wheel attachments, swivel wheel mounts allow the 5in wheels to turn in a complete circle. This makes the walker easier to maneuver in confined areas such as elevators, apartments and retail stores. Swivel Wheel Attachments add 6.25in to the height of a walker.

## Invacare® Tall Leg Extensions

Walker accessories allow individuals to customize walkers to their specific needs. Our adjustable accessories provide maximum flexibility and help improve maneuverability and use. These tall leg extensions will add height as needed. Fully adjustable and easy to install on any

## Silver Star® Silver Boom

The Silver Boom is a convenient and powerful lift for powerchairs and scooters alike. It has a weight capacity of 300 lbs, allowing you to lift heavy mobility equipment from the ground in the trunk of your car, van, or SUV with little to no effort. All you have to do is swing the arm of the lift until your mobility device is directly above the trunk/cargo area, and then lower it down using the convenient hand control. Owning a dependable piece of equipment like the SilverBoom 300 greatly increases your independence and mobility. No longer do you have to worry about lifting and removing your powerchair or scooter from your trunk alone, the SilverBoom 300 is here to help.

## BHM® V4 Ceiling Lift

Take care of your loved one and yourself too with help from BHM's V4 ceiling lift. The most technologically advanced lift on the market, the V4 safely and effortlessly lifts and transfers individuals from a chair to the bed, the bed to a chair, into the bathtub or to the toilet.

- Less obtrusive for patients
- Always available for use
- No storage requirements
- Safe and easy to use for moving your loved one
- Less space required to operate than floor lifts

Medicaid ✓

## Access Industries® - Select® Stairway Lift

Maximizing your independence and freedom while minimizing the dent in your wallet is the hallmark of our affordable Select stairlift. Select gives you the proven performance of a much more expensive model at a truly great price. The Select stairlift is designed for safety, comfort and convenience. Its sensors will automatically detect something blocking its path and gently stops to prevent damage to the lift or the object. When the object is removed, the stair lift continues on to your destination - no problem!

- A smooth and quiet chassis
- Hard working, 1/2 horsepower motor
- An easy-to-use hand-held control designed to work flawlessly, even for those with limited hand mobility
- Extra cushioning throughout the chair
- Added thigh support through a longer seat

## Access Industries® - Excel® Stairway Lift

The Excel® makes getting around your house simple and enjoyable, they have packed this stair lift with plenty of features! The amenities that come standard on the Excel® would be costly extras on some other models.

- A comfortable contour seat that swivels and locks at 60° or 90° away from the top of the staircase and lets you get on or off the lift with confidence
- The padded armrests, which make your ride much more comfortable, fold up and out of the way – giving you extra space to get assistance when you need it
- A state-of-the-art operating control switch can be placed on either side of the seat for your ease of use

**Next day installation on all in stock stairway lifts!**

- Convenient and easy to use
- Designed for most canes measuring up to 1" diameter
- Easily attaches to the cane shaft – no tools required
- Can be used on table edge or can be wedged underneath table surface

## DMI® Cane Strap

- Provides added security
- Lightweight strap attaches easily to cane shaft and slips comfortably over wrist
- Designed to fit most wood and aluminum canes

## Invacare® Full and Semi-Electric Hospital Beds

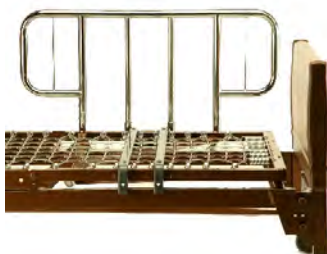

Invacare introduces the next generation Home Care Bed. Invacare's IVC Home Care Bed offers a number of innovations that translate into long-term savings over the product lifecycle.

- Reinforced headspring provides maximum bed strength and support
- Easy-release motor mounts allow quick motor removal
- Durable casters increase mobility and provide secure locking
- Reinforced corner-plates prevent bending
- Quiet, smooth operation
- Synchronization, split-spring design, and interchangeability ensure easy setup, and operation
- Robotically welded steel frame construction
- Trendelenberg, position can be easily achieved
- Pinch-free design ensures safety for patients and caregivers
- Operating capacity 450 lbs.
- UL73 and CSA approved
- Hand control adjusts head and foot positioning
- Full electric bed features electronic control of bed height as well as head and foot elevation

Medicare  
Medicaid

## Invacare® Bolt-On Full and Half Rails

Invacare's new Reduced Gap Bed Rails take the proactive approach to bed rail safety. The new designs offer added protection to traditional bed rails by closing up the open area that used to occur with the bed in the fully articulated position. The spacing between the crossbars of the reduced gap bed rails has also been modified to reduce entrapment hazards.

- Heavy-duty 1" chrome-plated, welded steel construction
- Dual flat-channel crossbraces are secured with wing-nut clamp assemblies
- Available in full and half rail

Medicare  
Medicaid

## Invacare® Tilt Top Overbed Table

- Adaptable tilt-top allows three angle positions in either direction using tilt-release lever
- Light upward touch allows table to elevate freely; downward touch on tabletop locks into position
- Attractive walnut wood-grained laminate top with flush-mounted T-molded edge (1/8in raised edge on tilt-top model) designed to resist damage
- Durable, heavy-gauge, chrome-plated welded tubular steel construction
- Supports up to 25 pounds of evenly distributed weight when table is in lowest position

## DMI® Bedside Beverage Holder

- Clamps onto any tubular frame with a diameter between 3/4" and 1"
- Accommodates most bottles, cans, cups, and mugs
- Slotted on both sides to hold a cup with handles
- Holder is 2-3/4" (ID) at the base and gradually flares to the top
- 11" long flexible, chrome-plated gooseneck extension rod makes positioning and repositioning of beverage holder easy

## Invacare® Home Bed Rails

- Tubular 7/8" chrome-plated, welded steel side rails have crossbraces with ten preselected lengths from 36" to 62"
- For use with home or dormitory-style beds - fits between mattress and box spring
- Rails fit most single, double and queen-size beds
- Available in full and half rail lengths

Medicaid

## Invacare® Extender Kit for IVC Beds

- Designed to expand 80in bed frame to 84in bed frame
- Complete with extended head pull tube, extended drive shaft, 4in bed frame extensions, link fabric, and helicals
- Works with all IVC beds and original style Invacare beds

Medicare  
Medicaid

## Invacare® Offset Trapeze Bar

An important patient room accessory designed to help patients change positions while in bed, and aid in the transfer from bed to chairs with minimum attendant assistance. Invacare trapeze units have a wide range of height adjustments and handbar positions to maximize patient accessibility. The unit can be installed quickly and easily on an Invacare floor stand or on any Invacare Home Care bed end.

- Heavy-gauged octagon-steel construction with no tools required for an easy assembly
- Nylon coating ensures a secure grip on handbar
- Wall bumpers and padded mounting brackets protect bed ends and wall surfaces

## Invacare® Hydraulic Lift

Too often, manual patient transfers lead to caregiver back injuries. The 9805 Hydraulic Lift was created to make transport situations safe and affordable for everyone involved. And with its slim design, the hydraulic lift is versatile enough to use for any and all patient moves. The features of the 9805 include a padded swivel bar and push handle, a 450-pound weight capacity, durable chrome-plated construction and 360 degrees patient rotation without side-to-side sway. Lightweight construction and easy disassembly allow quick transport and setup. Indispensable to patients and caregivers alike, the 9805 offers safety, comfort and stability.

- 20" - 64" range allows for patient to be picked up from lying position on floor
- Elongated handle design serves a broad range of operator heights and offers improved handling ability
- Offset mast and boom style provide better lift path, maximizing full travel range
- Pump handle can rotate from side to side for convenience of attendant
- Six-point swivel bar attachment easily adapts to all sling styles and positions

Medicare  
Medicaid

## Invacare® Full Electric Lift

The Invacare line of Reliant Plus lifts was conceived to prevent caregiver back injury and to ensure dignity in patient handling. These high-quality lifts are comfortable, reliable and an integral tool for staff and caregivers. Using the lift for patient handling reduces staff injuries, saving you money and reinforcing safety as a priority in your healthcare facility. Reliant Plus lifts support up to 450 pounds, making potentially challenging transfers smooth for resident and caregiver. The new higher lift range allows easy access to beds, chairs, toilets, floors, and tubs (with at least 4.5in clearance).

- Electronic system includes two 24-volt batteries: one for lift, one for battery-charging station; a manual emergency lowering device, and anti-entrapment if boom meets any resistance while lowering
- Height range allows lifting from floor and high surfaces. Safety-tested for highest quality standards. Base legs adjust easily and lock securely into open position with the padded shifter handle
- Manual lowering for instant response to power loss
- Padded swivel bar with 360 degrees rotation and six-point hookup allows use of Invacare chain-free slings as well as older-style slings with chains or straps

Medicare

## Invacare® Hydraulic and Electric Stand Up Lifts

These Stand Assist Lifts are designed for secure patient transfers. Secure and safe for both users and caregivers. Quick and easy access to cleaning and changing. Doubles as a commode lift for additional flexibility.

- Unique, ergonomic foot pedal base opening
- Large, easy to grip handles for easy maneuvering
- Lower base height maximizes stability and fits under most beds
- Rubber base coating protects furniture and walls
- Adjustable knee pad unit
- Quick release removable foot platform
- Optional buttock strap for patients requiring additional support
- Ergonomically designed hand pendant with pendant hook
- Maximum weight capacity 350 lb.
- Heavy-gauge steel construction

Electric Model Includes:

- Warning beep for low battery charge and weight capacity levels
- Easy access emergency stop button
- 24V DC motor allows quiet, smooth operation

Medicare
